#### FRANCE IS SATISFIED.

SO THE CABINET MEETING DECIDES.

BUT THE BLOCKADE IS NOT RAISED-DISSENSION BELIEVED TO ENIST AMONG THE MINIS-TERS-COMMENTS OF THE PRESS

Paris, July 30,-The meeting of Ministers to consider Siam's unreserved acceptance of France's ultimatum was held at the Elysce between 5 and from Marly-le-Roi to preside. These members of the Cabinet were present: M. Dupuy, Premier: M. Poincarre, Minister of Education; M. Riounier, Minister of Marine; M. Viette, Minister of Public Works, and M. Develle, Minister of Foreign Affairs M. Terrier, Minister of Commerce and Colonies, and M. Deleasse, Under Secretary for Colonies, telegraphed from the country that they would support any action which the Council might take. As far as can be ascertained, M. Peytral, M. Guerin, General Loizillon and M. Viger, the other absentees, offered no special excuses. General Loizillon caused considerable comment by leaving the city this morning for Mezieres, that he might attend the unveiling of the Bayard monument.

After deciding to accept Siam's concession of the French demands the Ministers deferred further definite action until measures should have been taken to guarantee Siam's fulfilment of her promises. They took steps, however, to inform M. Favie, French Minister Resident, now at Kohsi-Chanz, of Siam's acceptance of the ultimatum and the consequent action of to-day's council.

The eonterence of the Ministers was prolonged. The conference of the Ministers was prolonged in the colonial party, especially. Ettenne, Deleasse and Deloncle, to make him adopt a more hostile attitude toward the English claims than the personally is inclined to adopt. They are furious because a French protectorate has not furious processing a French protectorate has not furious processing the city of France she had no choice. The conference of the Ministers was prolonged by a discussion of the action which might be necessary in settling the boundary question between France and Great Britain. A certain amount of difficulty is expected to embarrass this part of the negotiations. Another Cabinet meetbe made to have all the Ministers present

Despite official denials, reports of Cabinet dissensions multiply. The last story in confirmation of these reports concerns the Cabinet council held on last Wednesday. It is substantially as

M. Deleasse, Under Secretary of State for Colonies, proposed a treaty with Siam on the lines of France's policy toward Madagascar. A protectorate should be established, he said, and all of Siam's relations with other States should be arranged through the French Government. Develle, Minister of Foreign Affairs, replied hotly that such a proposal could not be considered by the present Ministey. He himself had pledged the Government publicly to respect Siam's independence, and rather than violate his pledge by accepting M. Delcasse's project, he would resign

After a long discussion M. Delcasse proposed as an alternative that France occupy Angkor and Battambang. M. Develle refused also to agree to this. He would consent only to a pacific blockade, he said. On the following day M. Deleasse informed Premier Dupuy by letter of his intention to resign because he was convinced that a pacific blockade was an inadequate measure. On the same day M. Develle, after a long interview with the Marquis of Dafferin, British Ambassador, declared himself to be more determined than over afine the Government's action to the b'orkade. The differences between him and M. Deleasse were adjusted at the Cabinet Council on Thursday afternoon. Nevertheless M. Delcasse is known to be dissatisfied and is believed to be on int of resigning.

These reports have influced the advanced Radical newspapers to attack M. Develle on the ground that he has knuckled under to Great Britain. Whatever effect these attacks may have on domestic politics, it is reasonably certain that they will not interfere with the settlement of the Siamese question virtually within the limits determined by Great Britain.

J., of which he was the paying teller, and in whose employ he had been for twenty-five years. Fardon is about forty-eight years old, of quiet, retiring ways, and a cripple. He cared little for gayety, was genial and courteous in his ways, and lived modestly with his sister in an

unpretentious home at the East Side. The discovery of the peculation was made by United States Bank Examiner Stone, on his official visit to the bank last Friday; the complaint was made on that afternoon before United States Commissioner Alfred A. Van Hovenberg, who is also a Lay Judge of the Passaic County courts; the arrest of Fardon was not made until Saturday evening, and the facts were carefully kept from the knowledge of all except those immediately concerned until yesterday morning, when the officials of the bank sent for the reporters and made a statement of the affair.

Examiner Stone, in looking over the cash reserve of the bank on Friday, counted all through some packages of bills. He found that four of these bundles, stamped by the paying teller as containing \$5,000 each, were short, in the aggre-\$10,650. The examiner immediately reported the fact to the cashier, Edward T. The examination of the bank's affairs disclosed no further defalcation. The net loss to the bank is just \$650, as the Fidelity and Casualty Company, of this city, is on Fardon's

Cashier Bell, Director Garret A. Hobart and other men of the bank unite in saying that there is no doubt of Fardon's guilt, and that he is the only person who could have stolen the money. There was no tampering with accounts; it was a simple pocketing of money and falsifying of the stamp on bundles. The eashier says that no other kind of defalcation can occur in that bank, as no employe who handles money touches a pen to books, and no one who keeps books handles a cent of cash. The money must have been stolen recently, as all the cash was thoroughly counted the examining committee on June 25.

Fardon, in jail yesterday, told one reporter who aw him that he had not a word to say for publication, and he declined to see any other reporters. There are two theories as to what he did with the money. One is that he took it during the heavy decline in stocks in Wall Street, hoping to make a bold stroke and replace it. The other is that he sunk it in the Butler Silk Manufacturing Company, a small concern consisting of Fardon and his nephew, a man named Butler. There is no thought on the part of anybody that fast living or ordinary gambling entered into his case, Fardon's bail bond is fixed at \$10,000. Up to yesterday he had done nothing toward trying to ure a bondsman.

Residents of the village are much excited over the occurrence, and freely expressed the opinion last night that robbery and murder was the cause of the old man's death, and not accident. Mrs. Gleichman, proprietor of the hotel where Tronton usually man, proprietor of the hotel where Tronton usually boarded, and William H. Raymond, an Irvington conman, proprietor of the hotel where Tronton usually boarded, and William H. Raymond, an Irvington constable who served in the same regiment with Tronton, said the old man was always well supplied with money. None was found in the ruins, and Reddy has not been seen around the place since immediately after the body was found.

An inquest will be heid, and after the public prosecutor is informed his arrest may follow.
